

## **Registered Nurse (RN) (Maui)**

Seeking a registered nurse for a full-time employee position with Galler Rimm Behavioral Health, Inc (GRBH) and The Center for Peak Brain Performance (CPBP)

[www.GallerRimm.com](http://www.GallerRimm.com)

The Center for Peak Brain Performance (CPBP) provides state-of-the-art Personalized Repetitive Transcranial Magnetic Stimulation (PrTMS). PrTMS is a non-invasive, safe, non-drug neuromodulation device that directly targets specific areas of brain waves with magnetic stimulation in order to restore neuronal harmony. It directly targets the source of brain wave "arrhythmias" that may be the cause of several disorders and impairments. It is FDA approved for several conditions and must be administered under the supervision of a medical doctor.

### **Job Description:**

We are seeking a registered nurse to become the lead service provider for our state-of-the-art PrTMS neuromodulation program for patients of all ages. The right applicant will be trained on-site and be responsible for the implementation of the treatment. In addition, there are opportunities and incentives to become a stakeholder in our expanding agency. The RN will also be working with a Developmental/Behavioral Pediatrician and a Child, Adolescent, and Adult Psychiatrist. Immediate openings are available.

### **CPBP Offers:**

- Full time employee position with employee benefits
- Starting salary between \$75-\$90k/year, depending on training, experience and credentials
- Opportunities to earn performance incentives
- Employee benefits including:
  - Fully paid medical insurance including dental, vision, and chiropractic
  - Paid holidays, PTO, and paid CME
  - Worker's comp, temporary disability insurance, and unemployment insurance
- All billing, scheduling, and other office related needs
- Direct support from experienced developmental/behavioral pediatrician and child, adolescent, and adult psychiatrist
- Ongoing opportunities for professional growth

### **Required Education, Certification, and Experience:**

- Associates degree or higher
- RN certification preferable
  
- **Position Qualifications:**
- Must have Hawaii nurse's license
- Strong organizational skills
- Strong people and communication skills
- Ability to work collaboratively while also working independently
- Desire to collaborate with team members
- Solid technology skills
- Ability to pass state and federal background checks
- Your own malpractice insurance

### **Position Duties:**

- Perform EEGs on patients
- Administer PrTMS treatments to patients
- Gather and submit required documentation for prior authorizations required by insurance companies
- Monitor and track treatment progress
- Keep progress notes and any other reports or notes updated regularly
- Assist with training, mentoring, and supervision
- Collaborate and communicate with patients, caregivers, and other service providers as appropriate
- Meet with clinical staff regularly
- Attend regularly scheduled clinical meetings
- Assist with marketing and expanding the PrTMS program
- Adhere to ethical standards in the HIPPA and nursing code of ethics
